

Profile and Approvals

In all industrial countries STAUFF Clamps are used to give a clean and distinct layout for all pipe, tube and hose installations.

The vibration and noise reducing features are appreciated as being an important contribution to environmental protection.

Apart from the technical sophistication of STAUFF Clamps, the prompt delivery and service for both standard product and special constructions can be expected in all countries in the world.

STAUFF Clamps applications are almost unlimited. Due to the wide product range, all application areas where pipe, tube and hose are installed are covered:

- Industrial Hydraulics
- Mobile Hydraulics
- Marine Hydraulics
- Offshore
- General Industrial Pipe Construction
- Mining Industry
- Nuclear Reactor Construction
- Instrumentation and Control Technology
- Pneumatics

STAUFF Clamps have been approved by:

- Bureau Veritas
- Department of the Navy, New York
- Germanischer Lloyd
- Lloyd's Register of Shipping
- Registro Italiano Navale
- TÜV
- Russian Maritime Register of Shipping

Pipe Tube and Hose Supports

- 1/8" Through 48"
- Standard, Heavy, Twin, and Heavy Twin Series
- Cushion Clamp Series for Strut Rail Mounting
- Polypropylene (215°F) or Polyamid (350°F) and Aluminum (750°F) support halves from stock. Other materials available for higher temperatures and special applications
- Carbon steel, 304 and 316 stainless steel mounting hardware is available
- Mount on weld base or rail mount
- Can be stacked for multiple lines
- Rubber Insert series offer an increased level of vibration absorption and noise reduction for severe applications
- A complete range of Light-Series clamps for Pneumatics, Instrumentation, Machine Tool and Lubrication lines. Sizes 1/8" - 1"

LBBU Clamps

Originally developed to the agricultural market, these clamps are available in:

- Compact design very helpfull where the space is limited
- Ideal for field application - Water and UV ray proof

Custom Designed Clamps

- Machined Clamps can be designed and manufactured to customer specifications for OEM applications
- Flexi Clamps are custom clamps injection molded with low cost, flexible tooling for higher volume OEM applications

Special Packaging

Custom packaging and kitting is offered with a wide range of options according to customer requirements
