

Flow Characteristics

The following characteristics are valid for mineral based fluids with a density of 0,85 kg/dm³ and the kinematic viscosity of 30 mm²/s. The characteristics have been determined in accordance to ISO 3968.

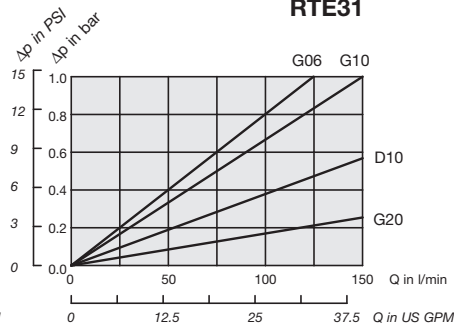

**Filter Housings
RTF30/31/32**

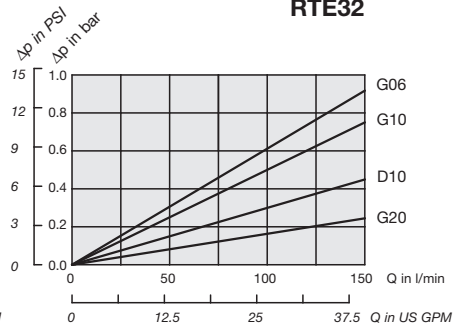

**Filter Elements
RTE30**

**Filter Elements
RTE31**

**Filter Elements
RTE32**

**Filter Breather
RTF30/31/32**
